

Beauty - Comfort - Quality

#1 The "Short Wave"™

This classic goes with everything and adds style to all your other earrings! It's great on anyone who wants to add a little pizzazz, but not another hole!

The Wave™ ® 1982

Is the basis for many of our more delicate and graceful styles. With our trademarked "Ear 'gonomic™" fit, The Wave™ comfortably adjusts to fit ears 4 years to 104...

On a child's ear, many of the "Short" Wave styles work well as "Full" earrings. On most others it sits up higher, more like a second hole. (style #4-H pictured)

Welcome to the wonderful world of Ear Charms™

Designer, quality hand-crafted, NON-PIERCED ear wraps and cuffs. Original ® copyrighted designs, 1982 - 2000, by Sandra Callisto, jewelry artist / design ear.

Specializing in non-pierced ear wraps and cuffs since 1982, Sandra has won multiple awards for her jewelry, originality, booth and costume designs. She creates styles that are classic, understated, elegant with clean lines and refined shapes that celebrate the ear.

We are proud to present our hand-crafted Ear Charms, which are the result of designs developed and refined for more than 18 years. Dedicated to taking a simple and healthy concept, into a beautiful, comfortable and intelligent alternative to piercing or clip-ons!

In order to create the wonderful, light weight and delicate designs we are known for, while maintaining the strength, shape and durability, we have developed and continue our highest standards of quality handcrafting. We use the best techniques, customized tools and the finest materials available.

Though it is more difficult to work with, our raw materials are specially hardened and treated in order to maintain the integrity, shape, spring and durability in even our finest, most delicate styles. Each finding (star, heart, leaf, stone mounting, etc.) must be individually soldered on by skilled hands. Our Ear Charms are then finely finished and many are hand set with precious stones and pearls. Every Ear Charm is then hand shaped, and even tried on, to ensure you'll receive the comfortable "Ear 'gonomic™" fit, that you will enjoy wearing for years to come.

As for our styles which are created by the ancient method of "Lost Wax Casting", Sandra hand carves her original designs in wax. Each piece is then faithfully reproduced by customized casting techniques we've developed to assure for quality, consistency, strength and most importantly "adjustability" and comfort. (Utilizing her extensive study of ears), she blends the character style with her "Ear 'gonomic™" fit to create FUN and striking, yet comfortable designs that compliment the ear.

For all of you that wear and/or share our Ear Charms, WE THANK YOU! May they bring as much charm to your lives, as they bring to ours.

#1X "The Long Wave"™

Extends down 'further' on the lobe and can be worn alone. (The "Long" length is preferred by most people who don't have pierced ears.

* An "X" in any style number - indicates it's the longer version of that style.

Or if your ears are pierced, it's stunning worn with your pierced studs - framed between it's arms...much like an earring jacket, but better!
