

The Grecian Curl™

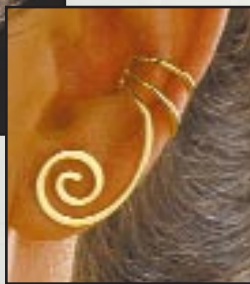

Non-Pierced earring, earring jacket and earring converter in one!

This Ear Charm™ is a natural choice for those with torn or irritated lobes. The basic top curl wrap can be worn by itself; or as an earring jacket if you wear pierced studs try one through center of the spiral then through the ear, for much the same look as our #51-CZ and #51-CP (which have the pearls or CZ's attached). For a uniquely individual look, try them as earring converters: remove the hook from your pierced dangle earrings and wind the earrings around the spiral - from the center out (similarly #51-A/D uses our removable double curl dangle). Not only can you hang other earrings, but charms and pendants make fun dangles too! This style is "Ergonomically designed"™, for a pair, order a left and right.

#51-A. The Grecian Curl (basic top converter only)

Can be worn all by itself as an earring; as a converter for your pierced earrings; or with a stud through it.

Fastion, Functional and Fun!

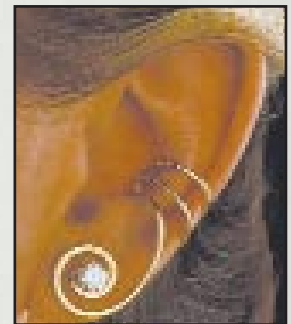

#51-A/D. The Grecian Curl basic top with removable Dangle.

For a fun asymmetrical look, try wearing the TOP on one ear and the dangle as an earring jacket hung from a stud on the other ear...

Or wear the top and dangle all on one side, as pictured.

#51-CZ. The Grecian Curl with Genuine Swarovski Cubic Zirconia.

Beautiful all by themselves, or with other earrings. Set with one brilliant 5 mm CZ (50 points) equals approximately 1/2 carat each.

"The Grecian Curl"™ Endless Versatility

#6 Earring Converter

Can be worn all by itself as an earring, or as a converter for your pierced earrings, or with a stud through the center of the tear drop...

#51-CP. The Grecian Curl with genuine "Akoya" Cultured Pearls.

These are great earrings worn by themselves. Set with one large (7 mm) pearl in the center of the spiral.

#6-D. "Infinity Dangle"

Designed to hang from our #6 converter, it can also be hung from the #51 converter or be worn as an earring jacket hung from a pierced stud. Fits either ear.
